Type F-SHK
with moveable
saw unit

ES 121 as moveable saw unit
The guide bar tilts in an angle of 90° on a fixed pivot
Ideal for end trimming and for cutting unedged goods

Available with integrated waste conveyor

CE-conform protection devices

Universal sharpening unit included in the scope of supply

Smooth cutting surfaces

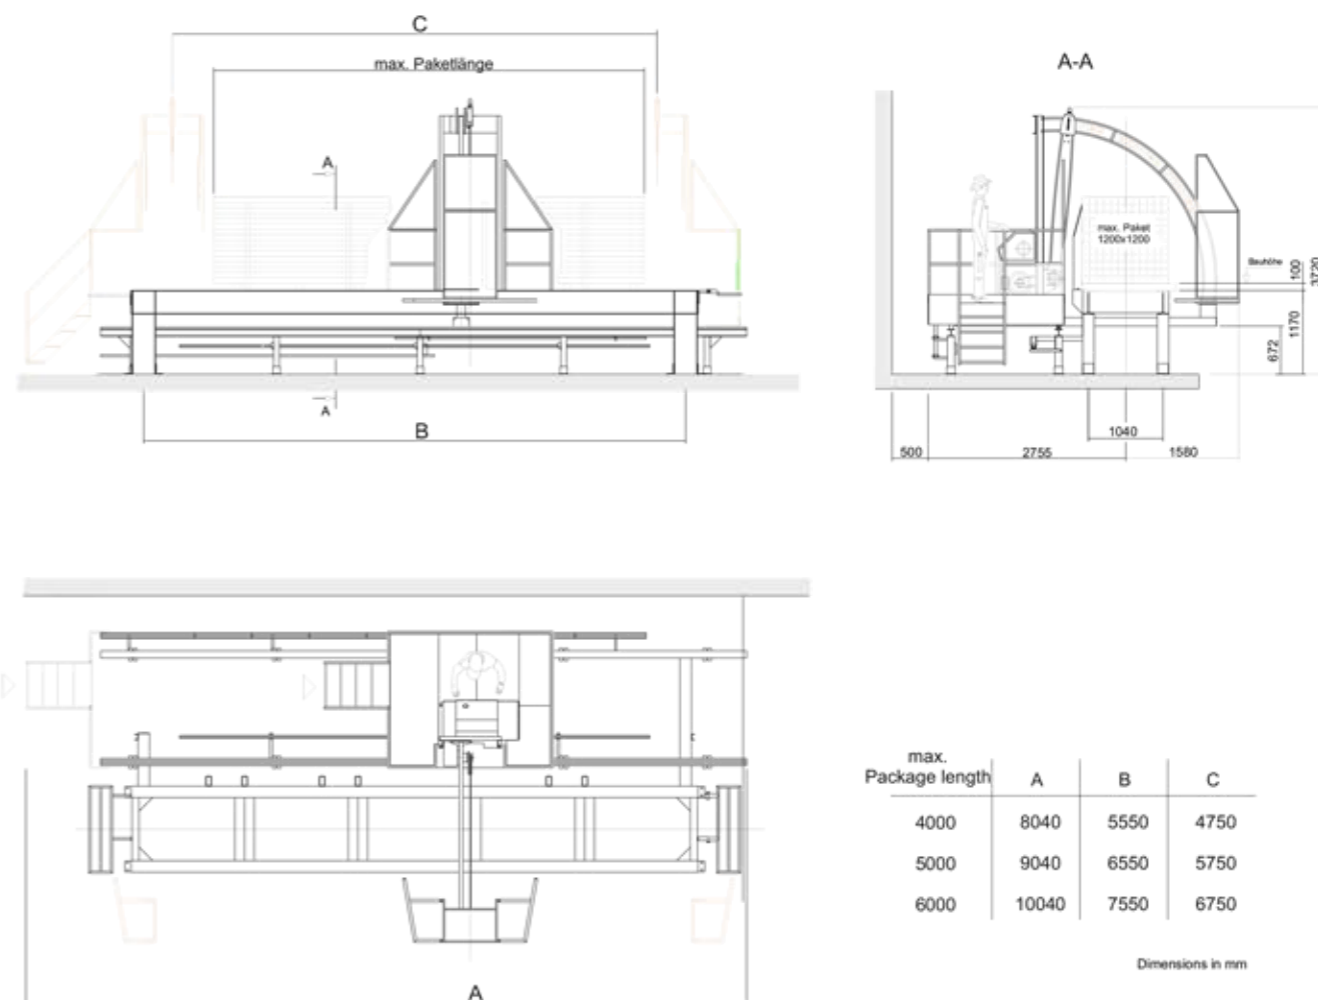

The ES 121 FSHK is the simplest solution for precise end trimming also of unedged timber and of timber packages which are stacked with gaps. By means of the moveable saw the packages remain in their loaded position and are cut to length with highest precision. These systems are also perfect for customers with limited space.

More than 8000 delivered systems worldwide prove: HOLTEC package crosscut stations meet every Requirement.

- Maximum cutting accuracy and ideal distribution of the cutting forces.
- Safe and easy operation
- Optional with manual or electrical positioning
- Hydraulical saw feed, continuously adjustable
- Maximum package length 6 m
- Guide bar length up to 250 cm
- Maximum package cross section > 1,2 x 1,2 m
- Saw drive 11 kW 400V/50Hz

- **Additional equipment**
- Electronic length indication or position control
- Electric positioning
- Integrated waste conveyor

Technical specifications - standard system

Subject to technical amendments. All dimensions without commitment.

HOLTEC cutting assembly = highest quality

- Guide bar completely stellite armoured and 4-fold turnable
